

Log In Help

Students log into most things with their email. Their email is their username followed by @mypolkschools.net (ex: name@mypolkschools.net). The username and password should have been provided by the school when you received your device or from your teacher. Sometimes this info can change over the summer and if you are using the username and password you used last school year and it isn't working, it may have changed.

Laptops you received from the school

- Logging into the device
 - If you are using a laptop you received from the school, you need to enter your username and password at the Windows Log In screen after starting up the laptop. The school laptops will enter the "@mypolkschools.net" for you. Entering the full email will work, but you can log in by only entering the username.
- Logging into Classlink
 - Double clicking on Google Chrome will open classlink for you and normally there's no need to log into it.
 - There are some very rare instances that Classlink will ask you to sign in. If it does, you will need to enter your full email which is the username followed by @mypolkschools.net If this happens, it should have you do this the next time you open Classlink
 - If you keep clicking on Google Chrome, it may open several windows. The first window will be classlink and the other windows you open will be blank and they will be "on top" of the first window. Just X out of the extra windows you opened and last window on the bottom should have Classlink on it.

iPads you received from the school

- Logging into the device
 - The iPads do not need to be logged into. Turning them on, or pressing the home button if they are asleep, will log them on.
- Logging into classlink
 - The iPads should have a link to Classlink on the second screen of the iPad. Just swipe the screen left if you don't see it.

- When you open Classlink, it will ask you to sign in. You will need to enter your full email address, which will look something like this:
username@mypolkschools.net and then you will need to enter your password.

Personal devices from home

- If you are using a device from, you will first need to go to the county website
 - <https://polkschoolsfl.com/>
- Next, open the drop down called “Students” if you are on a mobile device, you should see menu (usually 3 horizontal bars) that will have the “Students” link
 - Under the Students drop down, click on “Classlink for Students”
- When you open Classlink, it will ask you to sign in. You will need to enter your full email address, which will look something like this: username@mypolkschools.net and then you will need to enter your password.
