

Zoom Help – Joining a Zoom Meeting

Zoom can be accessed through Schoology as long as the Zoom app is installed on the device. If you have a device from the school, the zoom app is installed on iPads, but not the laptops. If you are on a laptop or if you are having trouble getting into Classlink or Schoology, you can easily get into Zoom. Just follow the directions below. Zoom meeting IDs and passwords will be given out by the teachers.

1. Go to zoom.us
2. Click “Join a meeting”
3. The next screen looks like the picture below. Clicking “launch meeting” will do one of 2 things:
 - a. On an ipad, launch meeting will open the screen to enter the meeting ID and password and then they can join
 - b. On a laptop, it will make the next sentence appear where they can click “join from browser” and then enter the meeting ID, etc...

When system dialog prompts, click Open Zoom Meetings.

If you have Zoom Client installed, [launch meeting](#). Otherwise, [download and run Zoom](#).

If you cannot download or run the application, [join from your browser](#).
